Fill Out Online Form For A Business Account

Business Account · https://servingalcohol.com/kb/business/online-form/

This article explains how to complete the online form to create a Serving Alcohol Business Account.

To create your Business Account, please fill out the Business Account Signup form

There is no cost for creating or maintaining a business account. We only charge for the courses taken and nothing else. You do not need to prepay the courses for your staff members. Unlike other online training providers, we invoice you later for the courses started by your staff members. We email you the invoice towards the end of the month.

Once you have filled out the form, we will send you instructions on certifying your staff with an enrollment key we provide.

Please fill out the Business Account Signup form
