Clear Cache in Google Chrome on iPhone or iPad

Clear Browsing Data · https://servingalcohol.com/kb/cache/clear-chrome-ios/

This article explains how to clear cache and cookies in Google Chrome on an iPhone or iPad before starting a Serving Alcohol course.

To manage your browsing history and other cached data:

1. Open the Chrome app.
2. Tap the ellipses (...) in the bottom right corner and select **Settings** in the menu.
3. Tap **Privacy**.

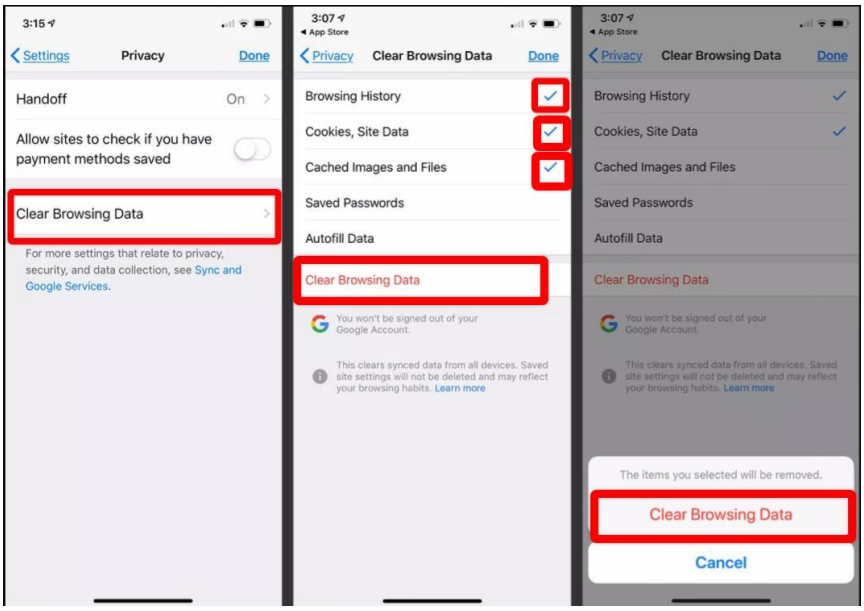

4. Tap **Clear Browsing Data**.
5. Please select the items you want to delete from Chrome by tapping them individually to place a checkmark next to them.

   Do not check on **Saved Passwords** as you'll want to save them.

6. Tap **Clear Browsing Data** and tap it again in the confirmation screen to remove the data.

7. Tap **Done** at the top right of the screen.

- After you clear your Internet cache, close your web browser.
  - Next, open the Chrome app again.
  - Log in to the course from our homepage at **ServingAlcohol.com**.
  - Click the **Sign In** button at the top of the page.
  - Enter your email address and password. If you used the Google Login with your Gmail, use that instead.
  - After logging in, click on the course name in dark red.
  - On the next page, click on the **Enter** button.
  - Select the **Last Visited Page** button.
