Clear Cache in Chrome on macOS

Clear Browsing Data · https://servingalcohol.com/kb/cache/clear-chrome-mac/

This document explains clearing the cache and cookies in Google Chrome on Mac OSX.

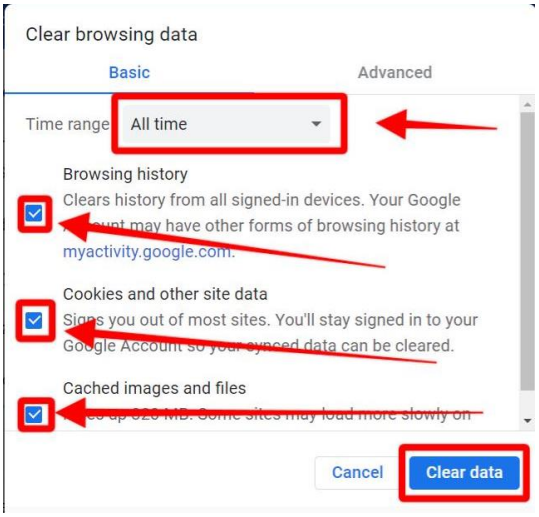

1. Click on **Chrome** > **Clear Browsing Data...**.

2. Check the following:
   - Browser history
   - Cookies and other site data
   - Cached images and files

*** Be sure to select the optional time range: **All time**

Select **All Time** in the **Time range** drop-down box. Do not check to clear your passwords; you'll want to keep those.

1. Click on the **CLEAR DATA** button.

- After you clear your Internet cache, close your web browser.
- Next, open the Google Chrome browser again.
- Log in to the course from our homepage at **servingalcohol.com**.
- Click the **Sign In** button at the top of the page.
- Enter your email address and password. If you used the Google Login with your Gmail, use that instead.
- After logging in, click on the name of the course in red.
- On the next page, click on the **Enter** button.
- Select the **Last Visited Page** button.
