Clear Cache in Firefox on Mac

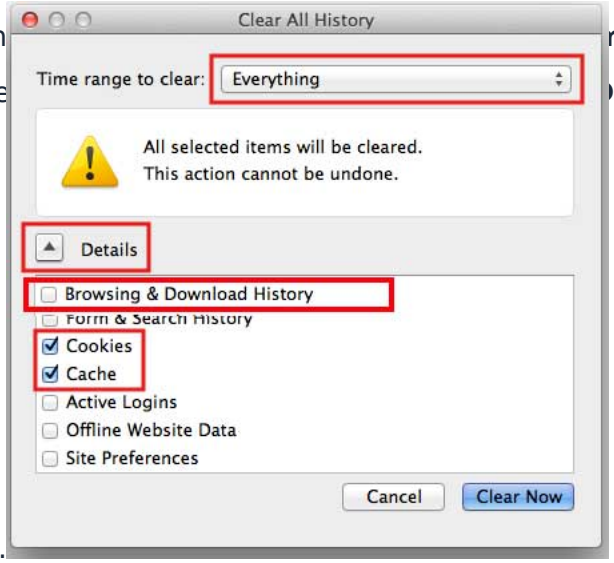

Clear Browsing Data · https://servingalcohol.com/kb/cache/clear-firefox-mac/

This document explains how to clear Firefox web browser cache on Mac computers.

1. In the menu bar, click on **History** > **Clear Recent History.**.

2. In the window that appears, click on **ne range to clear** and select **Everything**. Expand the **ownload History**, **Cookies,** and **Cache if necessary**.

3. Click **Clear Now**. Depending on how much data needs to be deleted, the progress wheel may spin for a few minutes. Once it stops, the process is complete.

- After you clear your Internet cache, close your web browser.

- Next, open your **Firefox** web browser again.
- Log in to the course from our homepage at **servingalcohol.com**.
- Click the **Sign In** button at the top of the page.
- Enter your email address and password. If you used the Google Login with your Gmail, use that instead.
- After logging in, click on the name of the course in red.
- On the next page, click on the Enter button.
- Select the **Last Visited Page** button.
