Clear Cache in Safari on Mac

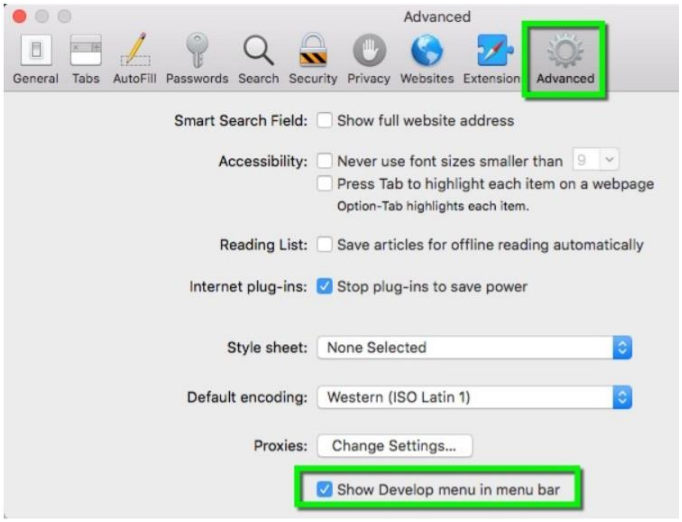

Clear Browsing Data · https://servingalcohol.com/kb/cache/clear-safari-mac/

This document describes clearing Safari cache for versions 15 and better on Mac computers.

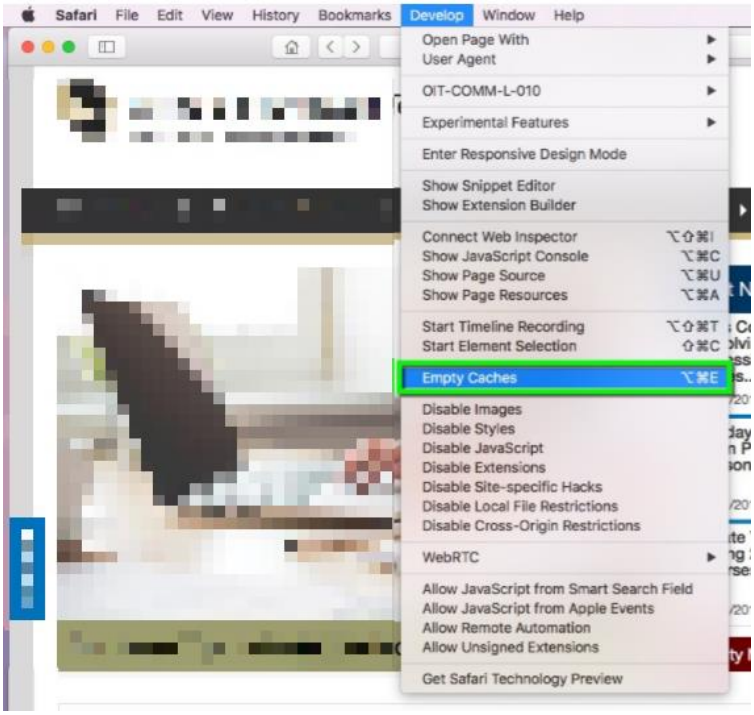

1. Click on the **Safari** drop-down menu and select **Preferences**.

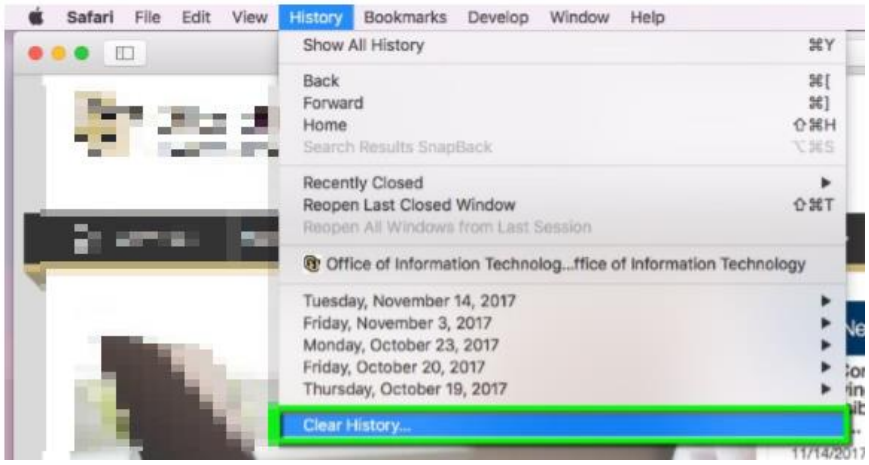

2. Click the **Advanced tab**. Select the **Show Develop menu in the menu bar** checkbox and close the Preferences window.

3. Select the **Develop** drop-down menu. Click **Empty Cache**.

4. Note: You may also want to clear your browser history. Select the **History** drop-down, then **Clear History**.

5. Close your Safari web browser

6. Next, open the **Safari** browser again.

- Log in to the course from our homepage at **servingalcohol.com**.
- Click the **Sign In** button at the top of the page.
- Enter your email address and password. If you used the Google Login with your Gmail, use that instead.
- After logging in, click on the course name in **dark red**.
- On the next page, click on the **Enter** button.
- Select the **Last Visited Page** button.
